

For Linux Academy Learners: Your Migration Checklist

A to-do list for Linux Academy Learners to ensure a successful move to the ACG Platform

We want your move to the ACG platform to be as seamless as possible, so we've provided the helpful checklist below in order to make that happen.

Reminder: Your Linux Academy account will be deactivated immediately upon migration to A Cloud Guru. We want you to be able to pick up where you left off, and deactivating your old account allows us to avoid issues in syncing data after you're active on the ACG platform.

Task	Description
 Make sure your profile details are up-to-date	<p><i>Under Manage Profile > Basic Details</i>, update your profile information so it's all accurate when you log in to ACG.</p> <p>Go to your profile here</p>
 Visit the Learner Resource Center	<p>The Learner Resource Center is your one-stop-shop for all things migration. Check out the resources and reach out to our support team with any outstanding questions.</p> <p>Get all the info you need here</p>
 Watch the Welcome to ACG Overview Video	<p>We made this nifty video to show you around and make you feel at home.</p> <p>Check it out here</p>
 Understand ACG Learning Paths	<p>ACG Learning Paths cover diverse topics, and there's something for everyone! Learning Paths at ACG work a little differently than you may be used to with LA, so make sure to take a look at our guide to understanding Learning Paths at ACG.</p> <p>See the guide here</p>
 Download Desired Certificates of Completion	<p>While your Certificates of Completion will be available in the ACG platform, they'll show the ACG logo. If you'd like to retain the Linux Academy logo, you'll need to download your certificates from the Linux Academy platform before you move.</p>
 Take note of the data and features you'll have at login	<p>As a reminder, all the data & basics you need to pick up where you left off will be available upon login to the ACG platform.</p> <p>If there's any additional information outside the below data & feature matrix that you'd like to keep, make note of it before your move date!</p> <p>Check out our Feature Comparison Matrix here</p>
 If you have a personal account on A Cloud Guru (in addition to your Linux Academy business account): let us know if you want to opt out of merging your personal account into your employer's business account	<p>As part of the migration, your ACG personal account and related data is scheduled to be merged into your account within your employer's business account. If you do not wish to have your personal account data become part of your employer's business account (in which case, your personal data would become visible in your employer's business plan), you must opt-out (which will cancel your personal account) before your migration date.</p> <p>You can find the opt out form here</p>
